

# Eko Kit

Environmental emergency spill kit

## Description

Eko Kit is a portable absorbing spill unit for fast and effective action against spills. Thanks to its small size, reliability and ready-touse configuration, it is extremely useful to absorb hydrocarbons and chemical products in general. Once completed the collection of the spilled liquid, the exhausted absorbent items can be easily collected in special nylon bags available in the case. Eko kit is an effective emergency solution on every kind of vehicle, where a practical, compact and professional spill response kit is needed.

Version available: EKO KIT 28, absorbency: up to 28 liters.
