

# SE Eco-Tank

Ecological tanks for exhaust oil.

## Description

Ecological steel tanks to store exhaust oils, Designed and manufactured in compliance with Annex C of the Ministerial Decree No. 392, dated 16 May 1996. Ideal solution for garages, depots, workshops, industries, transport companies and for all those activities needing to collect exhaust oils before delivering them to authorised collectors.

SE Eco-Tanks are provided with a retention basin, made in carbon steel and with a capacity equal to tank's volume.

## Main features

---

- SE Eco-Tanks are provided with a retention basin, made in carbon steel and with a capacity equal to tank's volume.
- Single wall steel tank, made with carbon steel dished ends and plates, quality S 235 JR according to UNI EN 10025.
- Externally primed and finished with an oil-resistant paint.
- Grounding point.
- Manhole, diameter 400 mm with hinged and lockable cover.
- Filters drainage mesh to facilitate filters dripping and to stop large objects from getting to the tank.
- Activated carbons vent filter to remove particles from the air and eliminate any odors that could be present.
- Mechanical Level gauge

## Accessories

---

- Roof system for protection against weather conditions, composed of a sturdy zinc-coated steel frame on which is fixed a self-bearing zinc-coated trapezoidal metal sheeting; it is designed to be easily and rapidly mounted and bolted to the SE Eco-Tank.

## Technical data

---

Model	Nominal capacity (lt)	Highness (mm)	Lenght (mm)	Fasciame (mm)	Diameter (mm)	Basin 100%
